

New recording of haulage data

On 03.01.2024, CAPRON was connected successfully to the time slot management system SyncroSupply.

Since this date, only registered and booked deliveries or collections in our system SyncroSupply will be processed. Courier and parcel service providers are excluded from this!

To participate in the booking system, you need an activation link and information material. Please complete the fields below and send us the completed registration form to the following e-mail address: zeitfenster@capron.eu

After final processing, you will receive our confirmation as soon as possible with all the necessary information.
